Summary of Data information, Malaysia														
Raw Data			Tape	Content Description		SPSS Program*	Documentation							
1970 census population data			CH142C or CH005C	1. Household record has 21 variables, 32,062 cases		malay70.sps	a							
				2. Person record has 39 variables, 175,882 cases										
				\seafert\malaysia\data\census70\malay70.dat										
1980 census population data			CH142C	78 variables, 182,602 cases			b							
				\seafert\malaysia\data\census80\malay80.dat		malay80.sps								
1991 census population data				\seafert\malaysia\data\census91\malay91.data			c							
				1. Household record has 71,256 cases		malay91hse.sps								
				1. Living Quarter record has 68,915 cases		malay91lq.sps								
				3. Person record has 347,892 cases		malay91per.sps								
Standard Data (matching women with husbands and children).														
1970			CH142C	Lrecl=200 103 variables, 39,071 cases			d							
				\seafert\malaysia\data\census70\malay70std.dat										
1980			CH142C	Lrecl=200 103 variables, 45,535 cases			d							
				\seafert\malaysia\data\census80\malay80std.dat										
1991				\seafert\malaysia\data\census90\malay91std.dat		malay91std.sps	e							
Standard Portable Data (matching women with husbands and children)														
Contain Contextual Variables														
1970				103 variables, 39,071 cases			d							
				\seafert\malaysia\data\census70\malay70std.por										
1980				103 variables Lrecl=200			d							
				\seafert\malaysia\data\census80\malay80std.por										
1991				62,120 cases										
				\seafert\malaysia\data\census90\malay91std.por		malay91std.sps	e
